

CME AND ACTIVITIES

Since inception of the department, we had the privilege of hosting two State level Anaesthesia CME & conferences. The first conference was hosted in the year September 1997 (13th State level Anaesthesia CME & Conference) and the second conference was held in August 2010 (State level Silver jubilee Anaesthesia CME & Conference). In addition, the department of Anaesthesiology is conducting Annual State level CMEs since 2008. The Annual CMEs conducted include important themes in the field of Anaesthesia and Critical care.
